

Leather New® is the first self-polishing saddle soap. One of the only leather preparations that cleans and polishes in one easy step. Farnam Leather New cleans, softens, and preserves the color and texture of leather, then dries to a long-lasting, high-gloss shine. A vast improvement over current formulas that won't dull the leather like saddle soaps, won't stain the leather like neatsfoot oil and won't rub off on or soil riding pants. Actually restores the leather, renews it, makes your saddle bright and new with a single application.

DIRECTIONS

First remove all dust and dirt from the leather with a soft brush or vacuum. Then spray Leather New directly onto the leather. NOTE: Do not allow Leather New to run. Use a soft, dry cloth to rub the liquid well into the leather. Be sure to use a cloth with enough nap to reach down into stitches and carving. Rub thoroughly until foam disappears. Then polish with a clean, dry cloth. Also use Leather New on wet leather to prevent stiffening. Use it on stiff leather to soften it and prevent cracking.

LEATHER NEW® LIQUID GLYCERINE SADDLE SOAP

CLEANS/CONDITIONS/POLISHES

64 FLUID OZ (1.89 l)

CAUTION

Keep this and other soap products out of children's reach. Do not use Leather New® on suede, rough-out or very light shades of leather. Do not use on leather clothing or leather furniture. If you are unsure whether Leather New can be used on your leather, simply test an area of the leather that cannot be seen. It may darken some leathers. The liability of Farnam Companies, Inc. shall not exceed the purchase price of the product.
