FEEDING GUIDELINES

Taking care of your dog's overall health starts by feeding him properly. We suggest using this chart as a guide. Adjust amounts accordingly over time. Please remember these portions are averages and will vary according to age, activity, size and temperament of your adult dog. Pregnant and lactating female dogs will require two to three times as much food as adult feeding guidelines shown. Puppies start to eat solid foods at three to four weeks of age and should have free access to solid food from this time until weaning. You may keep PRO PAC® Ultimates™ Bayside Select™ before your puppy at all times; most puppies will satisfy their nutritional needs as their appetite dictates. When switching to a new food, gradually increase the new food and decrease the old food over a 7 to 10 day period of time until your pet is completely eating PRO PAC® Ultimates™ Bayside Select™.

Cups of PRO PAC® Ultimates™ to Feed Your Dog Each Day

WEIGHT:	5 – 10 lbs.	11 – 25 lbs.	25 – 50 lbs.	51 – 100 lbs.	100 lbs. +
FEED:	½ – 1	1 – 1 ¾	1 ¾ – 3	3 – 5	5 +

A standard 8 oz. measuring cup holds approximately 3.9 ounces of PRO PAC® Ultimates™ Bayside Select™. Have clean fresh water available at all times.

+ ½ cup per 10 lbs. body weight
