# INSTRUCTIONS FOR YOUR PRODUCT

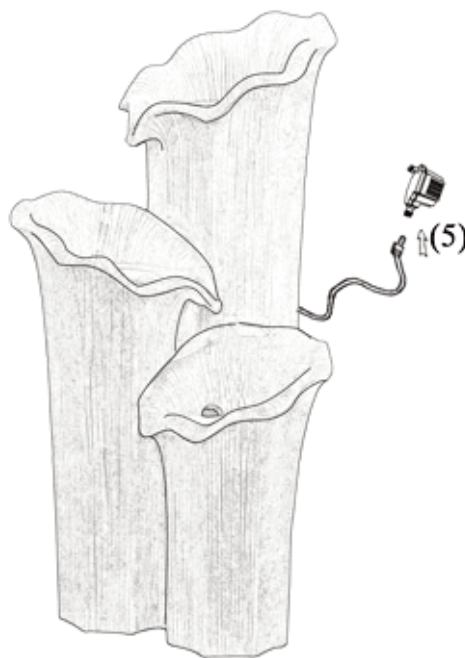

SS12232  
Three Lilies Cascading Sculptural Fountain

Thank you for your recent purchase of this Design Toscano hand-crafted garden fountain. We have taken great care to create this piece especially for you. Please review these instructions and assemble this piece with care.

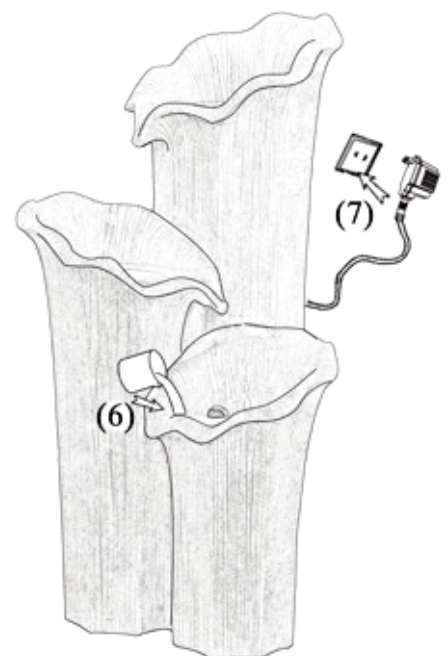

## Steps 1-4

- (1) Connect the flexible hose to the pump.
- (2) Connect the light cable to the connecting cable.
- (3) Connect the connecting cable to the pump cable.
- (4) Slide cover on the fountain body.

## Step 5

- (5) Connect the light cable and the pump cable to transformer.

## Step 6-7

- (6) Fill the reservoir with water and take a note of the level that the water reaches for future reference when topping off.
- (7) Plug in and switch on, after a short while the water will start to flow.

Adjust the pump flow rate to achieve the desired effect and to minimize any splashing. Splashing can occur if the flow rate is too high or the feature is too full. The flow rate can be increased or decreased by moving the flow rate control slider on the pump body. Moving the switch towards (+) will increase the flow rate and moving it towards (-) will decrease it.
