

QUICK DISCONNECT BATTERY TERMINAL

Thank you for selecting this quality Griot's product. The **QUICK DISCONNECT BATTERY TERMINAL** allows you to simply turn a knob to disconnect the battery from your vehicles electrical system. Enjoy the best!

DESCRIPTION

The two ends of the **QUICK DISCONNECT BATTERY TERMINAL** are separated by a white piece of plastic. The threads on the green plastic knob complete the circuit between both ends of the **QUICK DISCONNECT BATTERY TERMINAL** when fully tightened.

INSTALLATION INSTRUCTIONS

1. Remove the negative battery cable from your battery.
2. Clamp the **QUICK DISCONNECT BATTERY TERMINAL** to the negative battery terminal and tighten.
3. Clamp the negative battery cable to the end of the **QUICK DISCONNECT BATTERY TERMINAL**.

USEFUL INSTRUCTIONS

To stop the electrical supply, turn the green knob on the **QUICK DISCONNECT BATTERY TERMINAL** counter clockwise to open the circuit (the OFF direction as indicated on the top of the knob). This will render your vehicle powerless. To restore the power supply, turn the green knob clockwise to the ON position until it is completely tight.

DISCLAIMER

GRIOT'S GARAGE is not responsible for any misuse of the **QUICK DISCONNECT BATTERY TERMINAL** for any injury or damage incurred to any person or object related to the **QUICK DISCONNECT BATTERY TERMINAL**.
