# **RUSSIAN- PICKLE™ FUZZ**

**MKIII**

## **RUSSIAN-PICKLE FUZZ PLAYS YOU!**

Now in a Way Huge Smalls housing, the Russian-Pickle Fuzz dishes out smooth, creamy fuzz tones in a much more pedalboard-friendly package. It's got the exact same circuit and controls as the original, so you can keep trembling the earth with the same punchy midrange and fat bottomed thunder. Whether you're going for '90s-era grunge, swinging stoner grooves, or raw two-piece garage rock riffage, the Russian-Pickle Fuzz is the perfect comrade for your pedalboard.

# External Controls

- 1** VOLUME knob sets output level
- 2** DISTORTION knob adjusts fuzz intensity
- 3** TONE knob adjusts tone from warm to bright
- 4** FOOTSWITCH toggles the effect on/bypass (Blue LED indicates effect is on)

## POWER

The Russian-Pickle™ Fuzz is powered by a single 9-volt battery, a 9-volt AC adapter such as the Dunlop ECB003, or the DC Brick™ and Iso-Brick™ power supplies. The power input is a 5.5mm x 2.1mm jack with the positive voltage on the outer sleeve. Using an external power supply will disconnect the battery. Disconnect the input jack to preserve battery life when not in use. The pedal will lock into bypass mode when it is time to change the battery. It also includes power protection circuitry to prevent damage from AC power supplies.

# Specifications

|                  |                      |
|------------------|----------------------|
| Input Impedance  | > 42 k $\Omega$      |
| Output Impedance | < 50 k $\Omega$      |
| Noise Floor      | -80 dBV              |
| Bypass           | True Bypass          |
| Dimensions       | 5" x 3-1/4" x 2-1/2" |
| Current Draw     | 1.8 mA               |
| Power Supply     | 9 volts DC           |

All measurements made at 1 kHz, with controls at mid-position.
