36 Colorful bug counters
2 Number and color cubes
2 Gator Grabbers™

These bugs are tricky! Use your grabbers and nab them before they get away! Each of these games is a great way to practice color recognition and fine motor skills!

Game 1 – The youngest player goes first. Place all bugs in a pile. Roll the color cube, and see which color it lands on. Now, use your Gator Grabbers™ and take a bug in that color. It is the next player’s turn. Try to collect one of each color!

Game 2 – The youngest player goes first. Place all bugs in a pile. Roll the number cube, and see which number it lands on. Now, count out and take that number of bugs (in any color). Keep playing until a player can count out ten animals!

Game 3 – It’s a crazy bug hunt! All players play at the same time! Place all animals in a pile, and have one player roll both cubes. Now, all players try to grab the same color and number of bugs at the same time! Keep playing until a player collects one animal in each color.
