Contents

- 1 Game spinner
- 50 Game cards
- 70 Plastic coins (ten each of 1p, 2p, 5p, 10p, 20p, 50p, £1)
- Activity guide

Set up

Take the spinner, cards and coins out of the box before replacing the lid. Make all items easily accessible in the centre of the playing area. The box will act as the money bank. If at any point there are not enough coins on the table to complete a turn, coins can be taken out of the bank as needed.

Game 1: Money Match

- Ensure cards are placed coin side down.
- The youngest player starts by spinning the spinner and carrying out the action it lands on. If they land on pick up card/s, the player picks a card from the top of the pile looking at the side with the coins. The player must find the plastic coins in the pile that match the coins on the card. If they can make a correct match, they put the coins into the bank and keep the card. If they do not make a

correct match, the card gets put at the bottom of the pile (coin side down) and the coins are returned.

- It is then the next player's turn. Players take turns spinning the spinner and carrying out the action it lands on. The first player to collect 10 cards wins!
- For a shorter game, the first player to collect 5 cards wins.

Game 2: Shopping Spree

- Ensure cards are placed coin side up.
- The youngest player starts by spinning the spinner and carrying out the action it lands on. If they land on pick up card/s the player picks a card from the top of the pile looking at the side with an item for sale. The player must find the plastic coins that total the same amount on the price tag. If they can correctly identify a set of coins that equals the amount, they put the coins into the bank to "buy" the item and keep the card. If the coins do not add up to the correct amount, the card gets put back at the bottom of the pile (coin side up) and the coins are returned.
- It is then the next player's turn. The first player to collect 10 cards wins!
- For a shorter game, the first player to collect 5 cards wins.
