

## C1600 Burnisher

C1600

- All metal handle housing, tube and trigger assembly stand up to the rigors of the toughest jobs
- Proprietary pad driver provides full pad to floor contact conforming to low spots and rising up and over high areas
- Floating handle design lets even the most inexperienced operator achieve a smooth even shine and provides great maneuverability
- Thumb activated safety interlock prevents accidental start up which makes for a safer work environment
- Powerful 1.5 hp, 1600 RPM motor brings the shine out of the most worn floors
- Heavy all metal base is long lasting and durable

All metal handle with safety interlock feature

Low profile all metal housing with non-marking bumper

The Classic burnisher by Powr-Flite combines the traditional all metal burnisher housing with the most technologically advanced motors and electrical components, providing years of worry free service. These machines offer exceptionally smooth operation with a flexible pad driver for consistent results on uneven surfaces. Unlike conventional burnishers, the Classic features precision balanced weight distribution, providing complete pad-to-floor contact, eliminating the need for a compensating caster.

**Recommended Accessories:**

- White Polish Extra Fine** – Extra fine pad for polishing clean dry floors
- Luster Lite** – A soft textured pad for burnishing to a high gloss
- Image Beige** – For frequent burnishing on soft to medium finishes
- Combo** – A blended polyester and natural fiber pad for frequent burnishing
- Porko** – A blended natural pad for minimal burnishing on medium to hard finishes
- Porko Plus** – A high content of natural fibers, ideal for minimal burnishing on hard finishes
