The "Whole" room dryer!

Dry an average size room in just minutes with NEW downdraft™ drying technology! The new Powr-Flite F6 fan is the most versatile air mover available with multiple positions for every drying need...including 360° directed air flow. Downdraft™ drying pulls drier, warmer air from above, driving it down and out across the entire surface of the carpet. Whole room drying has arrived!... No more drying a room, one section at a time.

Dimensions	27" x 17 1/2" x 24"
Weight	52 lbs.
Warranty	1 year

Whole room drying has arrived!...

No more drying a room, one section at a time.

One dryer will dry an entire room in as little as 15 minutes. Dryers or air movers are typically spaced around a room in various positions to take advantage of walls and other surfaces to dry carpets as quickly as possible. But, a typical dryer has limited surface coverage and does not take advantage of the warm air at the top of a room.

The new F6 "whole" room dryer by Powr-Flite changes drying as we know it. No more leaving damp carpets to dry after you leave a job! The F6's 6-bladed precision pitched fan pulls warmer, drier air down, through the dryer, blowing it across the entire room for fast complete drying with only 1 dryer for the "whole" room.

The F6 fan pulls warmer, drier air down from the ceiling, blowing it across the entire floor for fast complete drying.
