Find Your Size

Suit jacket & sport coat sizing refers to your chest circumference and the length of your jacket.

Example: 38S, refers to 38 inches with a short length.

To start, you will need a tape measure, pen, paper, and a friend.

- 1 Arm Length**
Measure from the top of your shoulder bone to your wrist.
You may need help doing this.
- 2 Chest Circumference**
Measure around your upper body, under your armpits, over the fullest part of your chest and shoulder blades.
- 3 Waist**
Measure just above the hip, where your pants usually sit, keeping the tape comfortably snug.
- 4 Pant Inseam**
Measure from your groin to your ankle.

Jacket Cuffs

The Right Sleeve Length

About a half inch of your shirt cuff should show below your jacket sleeve.

Jacket Length

Your jacket should hit just below the hip.

Buttons

Single Breasted

A single button or single row of buttons.

Double Breasted

One side of the jacket overlaps the other and is secured by a double row of buttons.

Tip: The bottom button should always be left undone.

Pant Cuffs

Plain Hems

The uncuffed hem. Provides an overall cleaner look.

Cuffed

Hemmed with a fixed cuff. Good for pleated trousers or heavier-weight wools.
