**HOW TO FIND YOUR RING SIZE:** Match a circle with the inside of one of your rings to find your size. Half sizes are determined when your ring size falls between two of the circles indicated.

**STONE VARIANCE:** Gemstones are gifts from the earth, and each bears the unique coloration given it by Mother Nature. Stones prized for their veining are equally variable based upon the whims of nature's paintbrush. While our artists make every effort to match one piece to the next, a stone's uniqueness is part of what makes each of our offerings an individual work of art.
